Air One Aviation is the exclusive global sales partner for ROM Cargo's Boeing 747 freighter fleet, which can carry payloads of up to 112 tonnes of cargo.

ROM Cargo has appointed Air One Aviation as its exclusive Global Sales & Services partner.

This follows the awarding of the airline's Air Operators' Certificate by Romania's civil aviation authority to begin international Boeing 747-400 freighter services.

Combined with its existing airline client base, the new contract means Air One Aviation is now marketing its biggest-ever fleet of Boeing 747-400SF freighters globally as well as a Boeing 737-400SF for regional cargo services. In the past 18 months, Air One Aviation has generated over 270 million kilos of airfreight for more than 2,400 full freighter flights to more than 50 countries, achieving its most successful year yet.

Air One Aviation expects ROM Cargo's 747F fleet – which will be available for full charter services and capable of carrying

payloads of up to 112 tonnes – to meet immediate demand for Asia-Europe cargo capacity.

Paul Bennett, Founder & CEO of Air One Aviation Limited, stated: "We are delighted to welcome another Boeing 747 freighter operator into our fleet portfolio. With the support we are generating from our freight forwarding, logistics and charter broker customers for 747 all-cargo capacity, we are confident of quickly establishing ROM Cargo in the international market and

developing a platform for the next stage of the airline's expansion."

"Given its track record of generating growth for other 747 freighter operators, and its large, established customer base for full charter flights, we see Air One Aviation as a natural partner for our aircraft. It has a highly experienced commercial team, and we look forward to leveraging their knowledge and expertise in the freighter market," added Nicu Berla, Deputy Accountable Manager of the company, which trades as ROMMCARGO.

About Air One Aviation

Air One Aviation Limited is based in London and acts as exclusive global sales agent to Aerotranscargo S.R.L, delivering a comprehensive range of services including global long-haul cargo, ACMI wet lease passenger operations, and aircraft charter services. Most recently, Air One was also awarded a global cargo GSA contract with Aviation Horizon to support its launch venture into the all-cargo market for regional 737 freighter services.

2021 has also seen Air One Aviation increase its service portfolio for aviation industry clients with the acquisition of UK-based pilot training business, Quadrant Systems Limited (QSL). Formed in 1994, Quadrant Systems operates a purpose-built flight simulation and training facility at Burgess Hill, West Sussex, providing UK Civil Aviation Authority (CAA) and European Union Aviation Safety Agency (EASA) accredited Full Flight Training Simulators. With this acquisition, Air One Aviation can now provide pilot training using six simulators for Boeing 737NG, B737CL, B747-400, and Airbus A320 aircraft crews.
